

We, the undersigned frontline doctors who work in NYC Health + Hospitals facilities and are members of Doctors Council SEIU, work hard day and night throughout the H+H system to provide care for all New Yorkers.

We deserve to be treated with **RESPECT** and have a new contract NOW that enables us to **RECRUIT** new doctors and **RETAIN** the doctors we have. We have been bargaining with the affiliates (Mount Sinai, NYU, PAGNY and CDA) and H+H since last year and have received no substantive proposals to address our issues to ensure there are enough doctors on staff to take care of our patients and the communities we serve. Our issues are not being addressed and this is adversely impacting our ability to best serve our patients. Our efforts in bargaining have been met with disinterest and a lack of **RESPECT**.

We call on H+H and the affiliates (Mount Sinai, NYU, PAGNY and CDA) to settle our contracts NOW. Doctors deserve a contract NOW that has **RESPECT** for doctors and best positions us to **RECRUIT** and **RETAIN** doctors.
